

HORSTMANN

ELECTRISAVER Electronic Timer

The Electrisaver is a simple push button electronic timer that saves energy by remembering to switch off an appliance when you might forget!

Suitable for loads up to 3kW, Electrisaver is a perfect boiler override or extension timer and can be used on electrical equipment such as panel heaters, immersion heaters, heated towel rails and oil filled radiators.

Flush or surface mounting

Wiring is simple with easy access terminals

(Min. 35mm deep, not supplied)

ELECTRISAVER

There are three Electrisaver models which offer preset time periods ranging from 15-60 minutes, 30-120 minutes or 2-6 hours.

Simply press the boost button and walk away, safe in the knowledge that if you forget, Electrisaver won't!

The 3kW rating makes Electrisaver suitable for use with immersion heaters with a range of applications in shops, offices, schools, church halls, student accommodation and all around the home.

- Oil fired radiators
- Towel rails
- Boiler override
- Panel heaters
