

RTR-E 6124 Room Thermostat

For Underfloor Heating Systems

The RTR-E 6124 room thermostat has a high control accuracy that can be used to control temperature in individual rooms and zones.

- **Distinct connections and a large connection space for quick and easy installation**
- **Comfort setting range 5-30°C**
- **Fixed setback at 5 degrees below comfort (activated by external connection strip EVU 230 PL)**
- **Tamperproof with temperature limiting and temperature locking facility**

RTR-E 6124 Room Thermostat

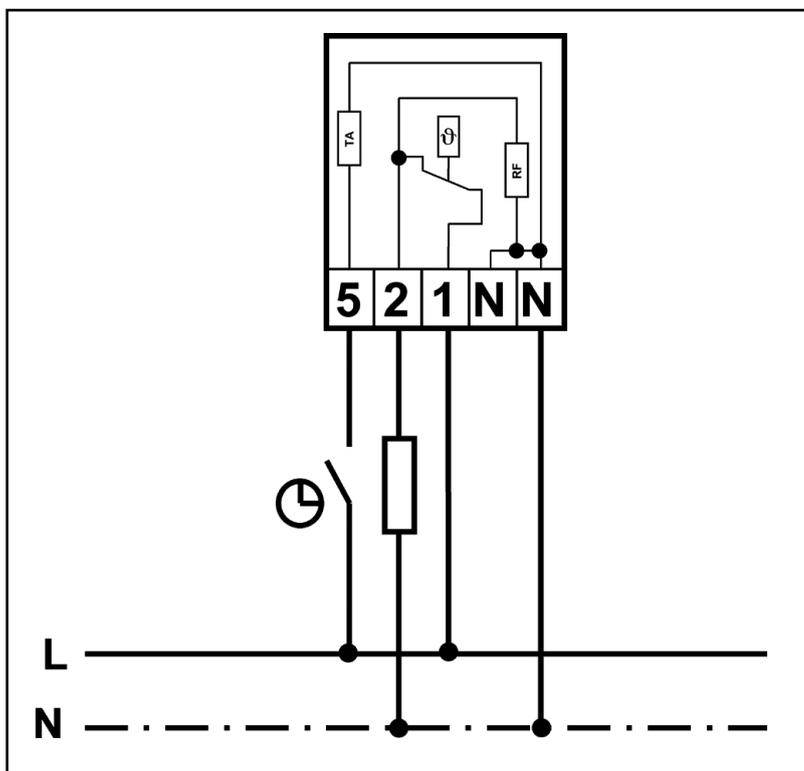

Features

- Attractive design
- Bi-metal thermostat with thermal feedback and high precision
- Wall mounting
- Distinct connections and large connecting space for quick and easy installation
- Housing colour pure white (RAL 9010)
- Temperature limiting and locking under setting dial
- Automatic setback via external connection strip EVU 230 PL

Technical Data

Part Number	111 1102 51 133
Temperature range	5 to 30°C
Contact	Normally closed
Operating voltage	230V a.c. 50/60Hz
Switching power	10(4) A
Setback	~5K
Hysteresis	~0.5K
Protection type	IP30
Dimensions	75 x 75 x 25.5mm
Automatic Function	by external timer
Relative Humidity	Max 95%
