

Thermostatic head with distance temperature feeler for setting and mixing

Max. working pressure	10 bar
Min. working pressure	0.2 bar
Max. water temperature	90°
Temperature range	20 - 70 C°
Regulation accuracy	± 2 C°

Pump technical specifications

Pump body material
 Rotating elements
 Maximum liquid temperature
 Maximum working pressure
 Inter-axis
 Flow coefficient

Cast iron En-Jl 1030 Din
 Composite Pas
 90°
 10 bar
 130 mm
 KV 3.0

Electrical data:

Absorbed power at speed levels 1-2-3	30-45-60 W
Frequency	50 Hz
Current at speed levels 1-2-3	0.13-0.2-0.26 A
Protection class (IEC 34-5)	IP 44
Isolation class (IEC 85)	F
