

# SAFETY DATA SHEET

Cookson Electronics ASSEMBLY MATERIALS

## Alphi 11Protector

### 1. Identification of the preparation and of the company

**Product name** : Alphi 11Protector**Code** : 61033**Head Office** : **Cookson Electronics**  
Forsyth Road  
Sheerwater  
Woking  
Surrey  
England  
GU21 5RZ  
Tel: +44(0)1483 758400  
Fax: +44(0)1483 728837**Manufacturer** : Cookson Electronics  
Koenendelseweg 29  
5222 BG  
's-Hertogenbosch  
The Netherlands  
Tel: +31 73 6280 111  
Fax: +31 73 6219 283**Contact person** : shosken@cooksonelectronics.com**Material uses** : Water-boiler treatment.

### 2 Hazards identification

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.

**Classification** : Not classified.**Effects and symptoms****Skin contact** : Slightly hazardous by the following route of exposure: of skin contact (irritant).**Toxicity data** : Not available.

See section 11 for more detailed information on health effects and symptoms.

### 3 Composition/information on ingredients

**Substance/preparation** : Preparation

Ingredient name	CAS number	%	EC number	Classification
Europe propane-1,2-diol See section 16 for the full text of the R-phrases declared above	57-55-6	80 - 100	200-338-0	Not classified.

Occupational exposure limits, if available, are listed in section 8.

The classifications listed, indicate the potential hazards of the ingredients

### 4. First-aid measures

**First-aid measures**

- Inhalation** : Keep person warm and at rest. Get medical attention if symptoms occur. If unconscious, place in recovery position and get medical attention immediately.
- Ingestion** : Wash out mouth with water. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

**Date of issue** : 02/12/2010.

1/6

## 4. First-aid measures

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.
- Notes to physician** : No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

See section 11 for more detailed information on health effects and symptoms.

## 5. Fire-fighting measures

### Extinguishing media

- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
- Not suitable** : None known.
- Special exposure hazards** : In a fire or if heated, a pressure increase will occur and the container may burst. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Hazardous combustion products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6. Accidental release measures

- Personal precautions** : Keep unnecessary and unprotected personnel from entering. Put on appropriate personal protective equipment (see section 8).
- Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Large spill** : Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Note: see section 1 for emergency contact information and section 13 for waste disposal.
- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

## 7. Handling and storage

- Handling** : Put on appropriate personal protective equipment (see section 8). Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Do not reuse container.
- Storage** : Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
- Packaging materials**
- Recommended** : Use original container.
- Czech Republic - Storage code** : III

## 8. Exposure controls/personal protection

### Exposure limit values

<u>Ingredient name</u>	<u>Occupational exposure limits</u>
<b>Europe</b> No exposure limit value known.	
<b>Sweden</b> No exposure limit value known.	
<b>Denmark</b> No exposure limit value known.	
<b>Norway</b> propane-1,2-diol	<b>Arbeidstilsynet (Norway, 11/2007).</b> TWA: 79 mg/m <sup>3</sup> 8 hour(s). TWA: 25 ppm 8 hour(s).
<b>France</b> No exposure limit value known.	
<b>Netherlands</b> No exposure limit value known.	
<b>Germany</b> No exposure limit value known.	
<b>Finland</b> No exposure limit value known.	
<b>United Kingdom (UK)</b> propane-1,2-diol	<b>EH40/2005 WELs (United Kingdom (UK), 8/2007).</b> TWA: 10 mg/m <sup>3</sup> 8 hour(s). Form: Particulate TWA: 474 mg/m <sup>3</sup> 8 hour(s). Form: Sum of vapour and particulates TWA: 150 ppm 8 hour(s). Form: Sum of vapour and particulates
<b>Austria</b> No exposure limit value known.	
<b>Switzerland</b> No exposure limit value known.	
<b>Belgium</b> No exposure limit value known.	
<b>Spain</b> No exposure limit value known.	
<b>Turkey</b> No exposure limit value known.	
<b>Czech Republic</b> No exposure limit value known.	
<b>Ireland</b> propane-1,2-diol	<b>NAOSH (Ireland, 8/2007).</b> OELV-8hr: 10 mg/m <sup>3</sup> 8 hour(s). Form: particulate OELV-8hr: 470 mg/m <sup>3</sup> 8 hour(s). Form: vapour and particulates OELV-8hr: 150 ppm 8 hour(s). Form: vapour and particulates
<b>Italy</b> No exposure limit value known.	
<b>Estonia</b> No exposure limit value known.	
<b>Lithuania</b> propane-1,2-diol	<b>Del Lietuvos Higienos Normos (Lithuania, 10/2007).</b> TWA: 7 mg/m <sup>3</sup> 8 hour(s).

## 8. Exposure controls/personal protection

### Slovakia

No exposure limit value known.

### Hungary

No exposure limit value known.

### Poland

No exposure limit value known.

### Slovenia

No exposure limit value known.

### Latvia

propane-1,2-diol

**LV Nat. Standardisation and Meterological Centre (Latvia, 5/2007).**

TWA: 7 mg/m<sup>3</sup> 8 hour(s).

### Greece

No exposure limit value known.

### Portugal

No exposure limit value known.

**Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

### Exposure controls

**Occupational exposure controls** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. <1 hours (breakthrough time): disposable vinyl

**Eye protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. Recommended: safety glasses with side-shields EN 166 1F

**Skin protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: lab coat

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. Physical and chemical properties

### General information

#### Appearance

<b>Physical state</b>	: Liquid.
<b>Colour</b>	: Colourless.
<b>Odour</b>	: Mild

### Important health, safety and environmental information

<b>pH</b>	: 5.8
<b>Boiling point</b>	: 100°C (212°F)
<b>Relative density</b>	: 1.04
<b>Solubility</b>	: Easily soluble in the following materials: cold water and hot water.
<b>Viscosity</b>	: Kinematic: 0.6 cm <sup>2</sup> /s (60 cSt)
<b>VOC content</b>	: 0 % (w/w)

## 10. Stability and reactivity

<b>Stability</b>	: The product is stable.
<b>Conditions to avoid</b>	: No specific data.
<b>Materials to avoid</b>	: No specific data.
<b>Hazardous decomposition products</b>	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. Toxicological information

### Potential acute health effects

<b>Inhalation</b>	: No known significant effects or critical hazards.
<b>Ingestion</b>	: No known significant effects or critical hazards.
<b>Skin contact</b>	: No known significant effects or critical hazards.
<b>Eye contact</b>	: No known significant effects or critical hazards.

#### Acute toxicity

#### Over-exposure signs/symptoms

## 12. Ecological information

### Aquatic ecotoxicity

#### Biodegradability

<b>Other adverse effects</b>	: No known significant effects or critical hazards.
<b>AOX</b>	: The product does not contain organically bound halogens which could lead to an AOX value in waste water.

## 13. Disposal considerations

<b>Methods of disposal</b>	: The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
<b>European waste catalogue (EWC)</b>	: 16 03 06 organic wastes other than those mentioned in 16 03 05
<b>Hazardous waste</b>	: Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

**Date of issue** : 02/12/2010.

5/6

## 14. Transport information

### International transport regulations

Regulatory information	UN number	Proper shipping name	Classes	PG*	Label	Additional information
ADR/RID Class	Not regulated.	-	-	-		-
IMDG Class	Not regulated.	-	-	-		-
IATA Class	Not regulated.	-	-	-		-

PG\* : Packing group

## 15. Regulatory information

### EU regulations

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

**Risk phrases** : This product is not classified according to EU legislation.

**Product use** : Consumer applications, Industrial applications.

### Germany

**Hazard class for water** : 1 Appendix No. 4

### Italy

**Emission control directive** : Not classified.

## 16. Other information

### History

**Date of printing** : 20/07/2011.

**Date of issue** : 02/12/2010.

**Date of previous issue** : No previous validation.

**Version** : 1

**Prepared by** : Not available.

✔ Indicates information that has changed from previously issued version.
