

# EnviroFoam

copper vented cylinder

The new Gledhill EnviroFoam cylinder ...  
ticking all the boxes

- ✓ 2010 Part L compliant
- ✓ 100% recyclable
- ✓ Low standing heat loss
- ✓ Compression fittings
- ✓ Next day delivery

When we created the EnviroFoam cylinder, all thoughts were of 2010 Part L Building Regulations...

...but through our efforts, we have created one of the most environmentally sustainable cylinders available in the UK.

It is advisable to check the product technical detail by using the latest design and installation manuals available from our technical support team or on our website.

Spec 106 Issue 02 08/10

**Why choose the EnviroFoam cylinders from Gledhill?**

Manufactured to BS1566 and 2010 Part L1B compliant, these cylinders have strong environmental credentials including;

- industry leading 35mm HCFC free insulation
- exceptionally low standing heat loss, in anticipation of EUP regulations
- insulation incorporates Polyol which is derived from Rapeseed oil - a fully renewable resource, with an industry leading Global Warming Potential of 0.7
- with a copper internal cylinder, the product is fully recyclable at the end of its working life
- manufactured at 15 locations in the UK, the cylinders have a lower carbon footprint derived from transportation than is typical in the industry

**What are the benefits for you?**

As well as being the most attractive open vented copper cylinder available on the market, you will also benefit from;

- next day lead time availability
- compression fittings
- 25 minute recovery time
- BS1566 and 2010 Part L1B compliant
- Easy access to immersion heater boss

**What sizes are available?**

The chart below shows our 6 standard sizes, but other sizes are available on request. Please contact your local Gledhill depot manager for more information.

Description	BS 1566 ref	Cylinder height (mm)	Cylinder diameter (mm)	Capacity (litres)	Weight empty (kg)	Heat loss (kWh/24hr)
<b>IND 900400</b>	2	900	400	96	13	1.59
<b>IND 1050400</b>	3	1050	400	114	15	1.75
<b>IND 900450</b>	7	900	450	117	15	1.78
<b>IND 1050450</b>	8	1050	450	140	17	2.00
<b>IND 1200450</b>	9	1200	450	162	18	2.12
<b>DIR 900450</b>	7	900	450	117	12	1.78

Sizes shown are excluding insulation

FM 2057  
Gledhill cylinders are produced under an ISO 9001:2008 Quality System accepted by BSI

To protect our environment, we use copper a totally recyclable metal, which never becomes waste.

"Only the best is acceptable"
