

QUINN radiators

Pearl & Topaz

SPECIFICATIONS

The Quinn Towel Radiator range provides a number of both modern and traditional designs that will enhance any bathroom or kitchen project and give it that necessary extra charm. The products are beautifully engineered to the highest of standards and several attractive models are available in a number of finishes. These radiators distinguish themselves with their modern and contemporary design.

OUTPUTS

Design radiators have been manufactured and tested in accordance with EN442.

QUALITY

Design radiators are manufactured under a BS EN ISO 9002 quality system accepted by BSI.

WARRANTY

All radiators are supplied under warranty for ten years in respect of defective materials and manufacture.

CONNECTIONS

All radiators except Adagio and Slieve Horizontal are supplied with Bottom-Opposite-End (BOE) connections. All-standard connections are 1/2" BSP.

INSTALLATION

For indirect systems or closed circuits only at a working pressure not exceeding 5.38 bar (78 p.s.i.).

WATER TREATMENT

It is strongly recommended on completion of the installation, the system should be properly flushed and filled in accordance with the British Standard Code of Practice for the Treatment of Water in Domestic Hot Water Central Heating Systems BS 7593. Use of a corrosion inhibitor is strongly recommended by the manufacturer. Failure to observe this recommendation will invalidate the manufacturer's warranty.
