 switched on solutions

SANGAMO

POWERSAVER DUAL

The New

Powersaver Dual is a dual immersion controller that allows users to maximise low cost electricity.

For installers, it is the simplest and easiest dual immersion controller available!

The Powersaver Dual has the absolute simplicity of electromechanical programming with the functionality of a digital controller.

With a selection of pre-set programs covering Economy 7, Economy 10 and Eco 20:20 times; the Powersaver Dual is a classic Sangamo Fit & Forget switch.

Designed for direct upgrade of installations of Sangamo Quartz7 and Horstmann Economy 7 Quartz.

- Battery back up
- Push button boost operation for up to 2hours
- Factory pre-set off-peak programmes and clock
- Automatic GMT/BST
- Clear illuminated display
- User option for daily boost program if required - max 2 hours
- 5 year guarantee

*Absolute Quality, Total Reliability,
Installation Simplicity*

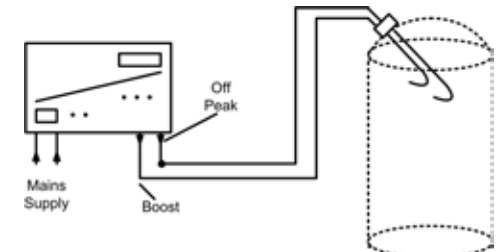

Three Easy Steps:

- 1 Identify program of choice from table
- 2 Turn installer switch to the corresponding number
- 3 Fit to base - New or Retro Fit base

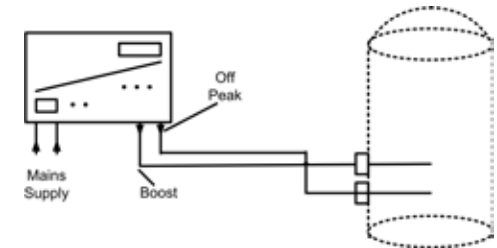

Suitable for:

Dual Immersion Heater

Two Immersion Heater

All products are approved to BS EN60730 and are fully compliant with the latest low voltage and EMC directives.
