## Training and Support to help you

Saunier Duval offers specialist high efficiency condensing training courses at all its regional training centres located across the UK. The course covers installation practice, flue options, system design, commissioning, servicing and fault finding. Our regional training centres are based in Bournemouth, Cardiff, Doncaster, Exeter, Manchester, Norwich and St. Albans.

Investment in regional training facilities cuts down on travelling time for installers.

Xeon CONDENS boiler specifications		
Model	Xeon CONDENS F18E	Xeon CONDENS F30E
Household suitability	2/3 bedroom house	Typical 5 bedroom house
Output heating	5.0 – 18.6 kW	5.3 – 28.2 kW
Weight	30 kg	33 kg
Clock	No	No
Fixing jig	X	X
Gas type	Nat	Nat/LPG
SEDBUK band	A	A
DIMENSIONS		
Height	600 mm	600 mm
Width	375 mm	375 mm
Depth	334 mm	334 mm
CLEARANCES		
Top	150 mm	150 mm
Bottom	300 mm	300 mm
Side	20 mm	20 mm
Flue type	F/F	F/F
Flue size	100 mm	100 mm
Max flue length vertical	10 m	10 m
Max flue length horizontal	10 m	10 m
Max flue length twin pipe	40 m	40 m

## F18E & F30E High Efficiency Condensing Boiler

Saunier Duval has grown to be a major international brand over the past few decades with a strong developing presence in European Markets and the UK. Saunier Duval has been supplying condensing boilers into the Dutch market for the past ten years, where high efficiency products now represent 80% of all installations.

Saunier Duval's latest addition to its range is the Xeon CONDENS High Efficiency Open Vented Boiler using tried and tested major components and technology. This appliance gives the installer a SEDBUK A rated appliance which is easy to install and maintain.

### Condensing the story into just a few words

Water vapour condensing in the flue is the sign of a stunningly effective process. It shows just how much energy is being saved. Thanks to equally impressive thermal efficiency, almost all the heat rescued is then put to good use.

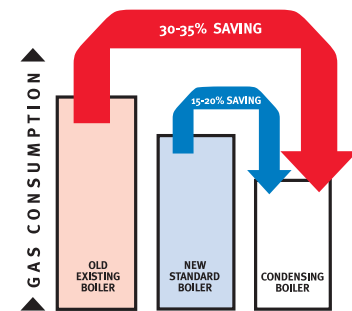

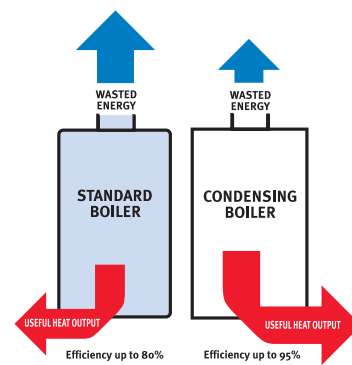

### 2 Year Warranty

The Xeon CONDENS Boiler comes with a 2 year warranty covering parts, also labour for the first year.

Computer aided process engineering has been employed to ensure that reliability and high performance comes as standard.

How the benefits stack up – at a glance.

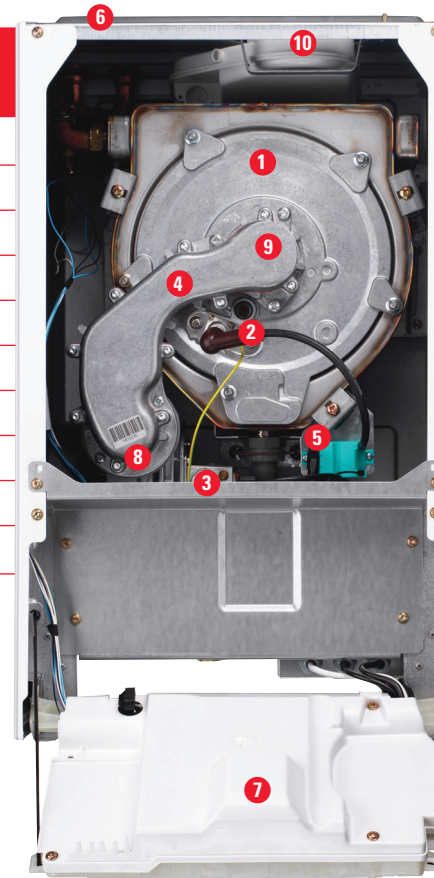

## F18E & F30E High Efficiency Condensing Boiler

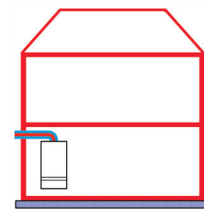

The Xeon CONDENS F18E and F30E high efficiency boilers have been designed to meet the needs of installers and end users alike. A wall hung, fanned flue, 18 kW and 30 kW open vented boiler the Xeon CONDENS is packed with features and benefits including, anti-seizure controls, frost protection, on-board diagnostics with LCD display making it reliable and user friendly. The Xeon CONDENS F30E can be converted to G31 propane in the field without the used of a conversion kit.

### Xeon CONDENS F18E and F30E features

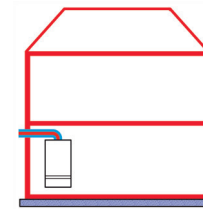

- 1 Stainless steel heat exchanger
- 2 Ignition electrode
- 3 Air/gas ratio controller
- 4 Mixing arm
- 5 Spark generator
- 6 Flow & return connections
- 7 Control box
- 8 Fan
- 9 Burner
- 10 Flue outlet

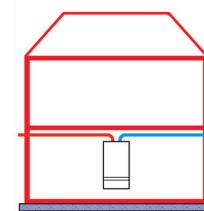

### Flue options

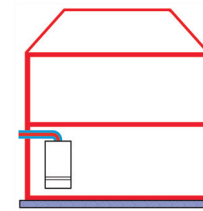

Horizontal Concentric Flue

Vertical Concentric Flue

Horizontal Twin Pipe Flue

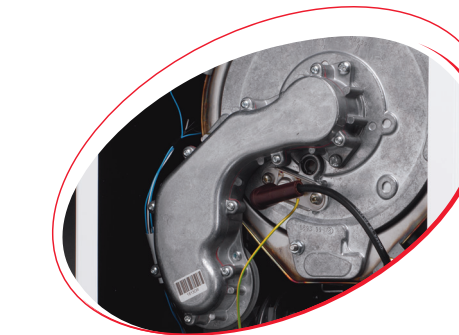

Vertical Twin Pipe Flue

## F18E & F30E High Efficiency Condensing Boiler

## The benefits to you and your customer

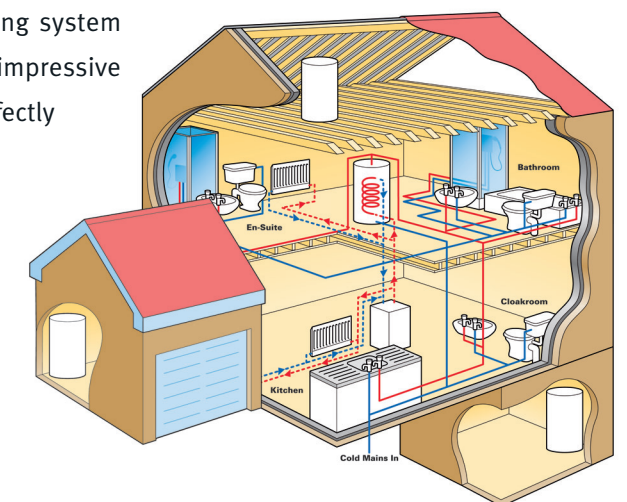

Concealed and easy to use control panel which includes temperature control, LCD display with on-board diagnostics

Stainless steel heat exchanger

The perfect choice for the larger home that needs a powerful heating system and lots of hot water using remote hot water storage. Yet despite the impressive power outputs, the Xeon CONDENS is stylish and compact, fitting perfectly into almost any situation.

Customers benefits		
Technical feature	Installer	End user
Daily pump spin	Less call backs	Reduced chance of breakdowns
Frost protection	Greater siting flexibility	Greater siting flexibility
Stainless steel heat exchanger	Less call backs	Increased boiler life
SEDBUK band A	N/A	Reduced gas bill
Fault codes	Faster fault diagnosis	Reduced service costs
Extensive flue options	Greater siting flexibility	Greater siting flexibility
Pre-mix burner	NOx class 5	NOx class 5
10m flue lengths	N/A	Improved aesthetics

### Stainless steel heat exchanger

The Xeon CONDENS range uses a stainless steel heat exchanger giving SEDBUK band A efficiency reducing gas bills and emissions. The high grade stainless steel offers peace of mind for the users and fewer call outs for the installers.
