SAFETY

This product uses fuel effect pieces and a burner compartment rear wall containing Refractory Ceramic Fibres (RCF), which are man-made vitreous silicate fibres. Excessive exposure to these materials may cause irritation to eyes, skin and respiratory tract. Consequently, it is important to take care when handling these articles to ensure that the release of dust is kept to a minimum. To ensure that the release of fibres from these RCF articles is kept to a minimum, during installation and servicing we recommend that you use a HEPA filtered vacuum to remove any dust and soot accumulated in and around the fire before and after working on the fire. When replacing these articles we recommend that the replaced items are not broken up, but are sealed within a heavy duty polythene bag, clearly labelled as RCF waste. RCF waste is classed as a stable, non-reactive hazardous waste and may be disposed at a landfill licenced to accept such waste. Protective clothing is not required when handling these articles, but we recommend you follow the normal hygiene rules of not smoking, eating or drinking in the work area and always wash your hands before eating or drinking.

This appliance does not contain any component manufactured from asbestos or asbestos related products.

INSTALLER AND OWNER GUIDE

FITTING THE CERAMIC PEBBLE FUEL EFFECT

The ceramic fuel effect may cause staining / discolouration to decorative surfaces. It is therefore advisable to protect decorative surfaces.

Note: Depending upon model the detail around the ceramic fuel effect may be different to that shown.

1. Place the base pebble in the firebox. It should rest on the ledges at the rear sides of the burner unit (See figure 1).

Figure 1 Rear base pebble position

Install the 6 loose pebbles as follows. The underside of each pebble is marked with a letter 'A' to 'F' and an arrow.

2. The pebbles should be positioned so that the arrows always point towards the back of the fireplace opening. When located into position the stem of each arrow should be at 90° to the rear of the fireplace opening (See figure 2).

3. Hold pebble 'A' upright with the arrow pointing to the top. Place pebble "A" on top of the base pebble (See figure 2).

Figure 2.

INSTALLER AND OWNER GUIDE

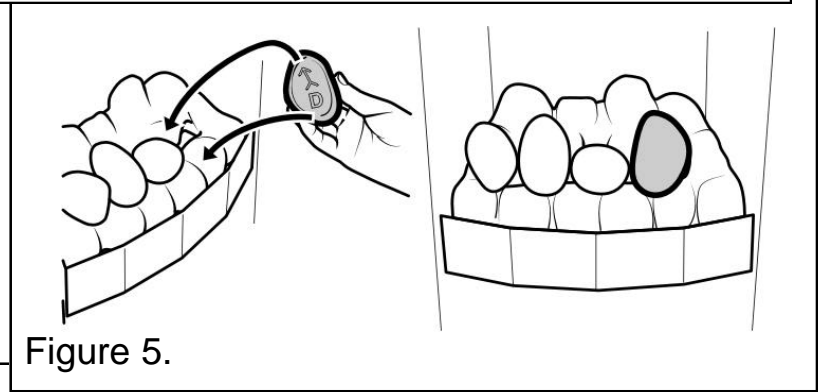

4. Hold pebble 'B' upright with the arrow pointing to the top. Place pebble "B" on top of the base pebble (See figure 3).

5. Hold pebble 'C' upright with the arrow pointing to the top. Place pebble "C" on top of the base pebble (See figure 4).

6. Hold pebble 'D' upright with the arrow pointing to the top. Place pebble "D" on top of the base pebble (See figure 5).

7. Hold pebble 'E' upright with the arrow pointing to the top. Place pebble 'E' on top of the base pebble (See figure 6).

8. Hold pebble 'F' upright with the arrow pointing to the top. Place pebble 'F' on top of pebble 'C'. It should rest against the rear of the pebble base (See figure 7).
