## INSTALLATION GUIDE

New Siena or  
Atlanta  
Surround and  
Hearth Set.

Surround and hearth sets intended for use with electric heaters must never be used with a gas fire.

**This guide should be read in conjunction with the installer and owner guides supplied with the heater.**

This guide is intended to help you install your suite. Please read carefully before installing. However, if further information is required, our **Valor Fires Technical Helpline** will be pleased to help.

Telephone **0844 8711 565** (National call rates apply in the United Kingdom)  
In the Republic of Ireland call **0044 844 8711 565**.

# INSTALLATION GUIDE

## SAFETY

- When drilling into brick work always wear safety goggles, a dust mask, and always work in a well ventilated area.
- Keep children clear of work area especially when assembling or moving the surround / mantle assembly.
- Always read the installer and owner guide supplied with the heater / fire. This guide should be read in conjunction with those supplied with the heater / fire.
- Always tidy loose electrical leads in the work area.
- Always switch off electric power when not needed.
- The surround must always be fixed into position.

## HANDLING AND UNPACKING

Before continuing any further with the installation of this mantle / surround and hearth please read the following:

### Important instructions.

- The approximate lifting weights of the surround and hearth are as below:

Surround including rear panel	26.5 kg.
Hearth including floor panel	15.5 kg.

- One person should be sufficient to lift the hearth or surround. If for any reason this weight is considered too heavy then obtain assistance.
- When lifting always keep your back straight. Bend your legs and not your back.
- Avoid twisting at the waist. It is better to reposition your feet.
- Avoid upper body / top heavy bending. Always bend from the knees rather than the waist. Do not lean forward or sideways whilst handling.
- Always grip with the palm of the hand. Do not use the tips of fingers for support.
- Always keep the Surround and Hearth as close to the body as possible. This will minimise the cantilever action.
- Use gloves to provide additional grip.
- Always use assistance if required.

# INSTALLATION GUIDE

## CONTENTS

## ASSEMBLING THE SURROUND AND HEARTH

The installation of this Surround and Hearth requires a reasonable level of DIY skills.

Please read this guide thoroughly before commencing installation and if in doubt, seek help from a competent person

### Do I need any tools?

You will need the following tools :

- A Pozidrive / Phillips / cross head screwdriver. This should have a number 2 size tip.
- If drilling into brick work you will need a power drill (preferably with hammer action) and appropriate size drill bit for the wall plugs supplied.

# INSTALLATION GUIDE

## How to assemble the Surround and Hearth.

### Step 1

- Lay the surround (A) onto a smooth, flat, clean surface with the inside facing upward. Place wall fixing brackets (C) 50mm from the top outside edge of the legs as shown in figure 2. Secure in place using four screws (F).

Figure 2. Fitting the Wall Brackets to the Surround legs.

### Step 2

- Lay the hearth (B) on the floor. Stand the surround (A) on top of the hearth. Position the surround so that it is central to the hearth and the rear of the surround legs are flush with the back of the hearth.
- Secure the surround to the hearth using four screws (E) through the holes in the wooden blocks (See figure 3).

Figure 3. Fitting the Surround to the Hearth.

### Step 3

- Carefully move the whole assembly into place. Mark the positions of the bracket holes on the wall. Move the assembly aside and drill suitable sized holes. Insert the wall plugs (D). Position the whole assembly into position and secure using two screws (E).

*Note: The wall plugs are only suitable for brick or block walls. For timber framed walls covered in plaster board we recommend the use of heavy duty cavity fixings.*
